

CHIANG MAI CARDIOLOGY CONFERENCE (CMCC 28th)

10th-13th September 2026: Chiang Mai Thailand

Value-Based Health Care in Cardiology

Thursday 10 September 2026

10.30-12.00	FLOOR 2 GRAND LANNA BALLROOM	Value-Based Hypertension Control for Thai Patients: A Debate Diagnosis when BP is constantly \geq 130/80 mmHg Single-pill combination available for all Thais: Renal Denervation is Value-based treatment:
12.00-13.30	LUNCH SYMPOSIUM	
13.30-14.30	FLOOR 2 ROOM 1,2	ACC 2026 Expert consensus on CV prevention Update dyslipidemia guideline: ACC viewpoint Cracking the Weight Code: A CV Prevention Priority Shots That Save Hearts: Adult Immunization in CV
	FLOOR 2 ROOM 3	Everyday Choices on CV Outcomes: Small Things, Big Impacts Does one cup of coffee keep AFib away? The Salt-Water Trap in Heart Failure Poor sleep – Hidden threat to the heart
14.30-15.00	COFFEE BREAK	
15.00-16.00	FLOOR 2 ROOM 1,2	Delivering Value in Cardiovascular Care for the Aging Heart: Deprescribing in polypharmacy, less is more PCI in NSTEMI, uncertain benefit! Switch VKA to DOAC in frail patients, is it safe?
	FLOOR 2 ROOM 3	High-Value Approaches to CV Risk Assessment Aortic knob calcification – Simple but valued tool Coronary artery calcium score – zero: truly low risk? Lipoprotein (a) – How should it change clinical practice?

CHIANG MAI CARDIOLOGY CONFERENCE (CMCC 28th)

10th-13th September 2026: Chiang Mai Thailand

Value-Based Health Care in Cardiology

Friday 11 September 2026

07.00-08.00	BREAKFAST SYMPOSIUM	
08.30-09.00	FLOOR 2 GRAND LANNA BALLROOM	<i>Opening Ceremony</i>
09.00-10.30	FLOOR 2 ROOM 1,2	<p>What's new in diagnosis of myocardial infarction</p> <p>5th Universal definition of myocardial infarction</p> <p>AI-assisted ACS care</p> <p>MINOCA: When the Angiogram Is Normal—What Comes Next?</p> <p>Hs-Troponin I/T Ratio in Differentiating Type 1 vs Type 2 MI: Old Dogs, New Tricks</p> <p>Pitfalls in diagnosing MI: Learn from the mistakes!</p>
10.30-11.00	COFFEE BREAK	
11.00-12.00	FLOOR 2 ROOM 1,2	<p>Value-driven pharmacotherapy post-MI</p> <p>Beta-Blocker Debate: Post-MI Patients Without HF</p> <p>Choice of antiplatelet therapy, final verdict?</p> <p>Early Lipid-Lowering Intensification Post MI: Worth It?</p>
	FLOOR 2 ROOM 3	<p>Value-driven care beyond medications:</p> <p>Dietary guidance: AHA 2026</p> <p>Cardiac rehabilitation: Update ESC 2026</p> <p>Applying guidelines to real case</p>
12.00-13.30	LUNCH SYMPOSIUM	
13.30-14.30	FLOOR 2 ROOM 1,2	<p>Value-driven care after PCI</p> <p>Revascularization strategy of non-culprit lesion after STEMI – final answer?</p> <p>Intravascular imaging in complex PCI – neutralize by operator experience?</p> <p>How soon can we drop aspirin after ACS?</p>
	FLOOR 2 ROOM 3	<p>Value-driven care on valvular heart disease</p> <p>ACC 2025 Expert consensus on Tricuspid Regurgitation</p> <p>Transcatheter Tricuspid Valve Annuloplasty: A Note of Caution</p> <p>Early intervention in asymptomatic severe AS, any value?</p>
14.30-15.00	COFFEE BREAK	
15.00-16.00	FLOOR 2 ROOM 1,2	<p>ACC 2025 vs ESC 2025: Myocarditis and Pericarditis</p> <p>What are the essential agreements and differences?</p> <p>What are the obstacles to implementing in practice?</p> <p>Applying guidelines to real case</p>
	FLOOR 2 ROOM 3	<p>Update ESC guideline 2026: CVD and CKD</p> <p>Top 10 messages from the guideline</p> <p>What are the obstacles to implementing in practice?</p> <p>Update trials beyond guidelines (fish oil, FISH trial, PISCES trial)</p>

CHIANG MAI CARDIOLOGY CONFERENCE (CMCC 28th)

10th-13th September 2026: Chiang Mai Thailand

Value-Based Health Care in Cardiology

Saturday 12 September 2025

07.00-08.00	BREAKFAST SYMPOSIUM	
08.30-09.30	FLOOR 2 ROOM 1,2	<p>Update ESC guideline 2026: Heart failure</p> <p>Acute heart failure Chronic heart failure Advanced heart failure</p>
	FLOOR 2 ROOM 3	<p>AF management in special populations: Case-based learning</p> <p>Post-op AF AF during sepsis/critical illness/hyperthyroid AF in dialysis OAC after AF ablation AF with CCS</p>
09.30-10.00	COFFEE BREAK	
10.00-11.00	FLOOR 2 ROOM 1,2	<p>Heart failure in special populations</p> <p>Withdraw therapy in HF with improved LVEF: new evidence! Revisited Traditional Therapy in Hypertrophic Cardiomyopathy (SGLT2i/RV pacing, BB/CCB) Smart Testing for Cardiac Amyloidosis: Value Over Cost</p>
	ROOM 3	<p>Stroke prevention in special populations</p> <p>Optimum duration of double therapy in AF-PCI, new evidence! LAA occlusion vs DOAC, who wins? Resurrection of Factor XI inhibitor!</p>
11.00-12.00	FLOOR 2 ROOM 1,2	<p>Back to Basics: Using Old Tools Wisely in Modern Cardiology</p> <p>Revisit digoxin: When and how to use digoxin wisely ICD in non-ischemic CM: How to choose? Electrolyte Therapy — Simple Cure or False Hope for Arrhythmias?</p>
	FLOOR 2 ROOM 3	<p>Cardiogenic shock: Learn from the real case!</p>
12.15-13.15	LUNCH SYMPOSIUM	
13.30-14.30	FLOOR 2 ROOM 1,2	<p>AHA/ACC guideline 2026: Acute pulmonary embolism</p> <p>Top 10 messages from the guideline What are the obstacles to implementing in practice? Applying guidelines to real case</p>
	FLOOR 2 ROOM 3	<p>AHA/ACC guideline 2025: Adult congenital heart disease</p> <p>Top 10 messages from the guideline Applying guidelines to real case</p>
14.30-15.00	COFFEE BREAK	
15.00-16.00	FLOOR 2 ROOM 1,2	<p>Syncope: Memorable cases from the expert</p>
	FLOOR 2 ROOM 3	<p>Challenge in prosthetic valve management</p> <p>Bioprosthetic valve dysfunction – redo-surgery vs transcatheter Fibrinolysis in prosthetic valve thrombosis Prosthetic valve IE</p>

CHIANG MAI CARDIOLOGY CONFERENCE (CMCC 28th)

10th-13th September 2026: Chiang Mai Thailand

Value-Based Health Care in Cardiology

Sunday 13 September 2026

07.00-08.00	BREAKFAST SYMPOSIUM	
08.30-09.30	FLOOR 2 ROOM 1,2	<p>Clinical Trials of 2026 that impact your practice!!</p> <p>Cardiovascular disease prevention (12 min)</p> <p>Coronary artery disease (12 min)</p> <p>Heart failure</p> <p>Arrhythmia</p>
09.30-10.00	COFFEE BREAK	
10.00-11.00	FLOOR 2 ROOM 1,2	<p>Update CPR guideline</p> <p>What's new?</p> <p>Controversy issues (Double sequential defibrillator, E-CPR)</p>
11.00-12.00	FLOOR 2 ROOM 1,2	Value-driven cardiology in a new era: Are We Delivering Value—or Just Doing More?
